Subject: Microsoft Settlement

Re: Settlement of the United States vs. Microsoft
antitrust lawsuit.

Gentlemen:

The proposed settlement is bad idea. A proper settlement must: provide redress to the companies whose software innovation has been denied access to markets by the continuing illegal monopolistic practices of the Microsoft corporation

provide restructuring of Microsoft corporation and restraints on the resulting companies to effectively deny their cooperation to achieve the same result,
and
provide ALL companies equal and open access to all their products interfaces
and
formats

provide severe punitive economic sanctions to dissuade such egregious corporate injury

to free market enterprise
in the United States of America
ever again.

Respectfully,

Teresa L. Beumeler
Raleigh, North Carolina
